Dogs do not need to be dachshunds for this race.

#### Highland Games

Stop by Shepherd's Green Field throughout the day to see your favorite Highland Games Events. Games begin at 9:15 am!

- **Heavy Hammer Toss** The hammer head is a 22 pound iron ball on the end of a cane shaft, measuring 4 feet 2 inches overall. The hammer is thrown from behind a trig and the athlete is allowed to count the best of three throws.

- **Open Stone Putt** The stone of strength is the Scottish shot put. It weighs 16 or 22 pounds. Legend has it that the distance a guest of a Scottish landlord could put the stone of strength determined the sleeping accommodations he could expect to receive during his stay. The stone is put with one hand, from behind the trig.

- **Heavy Weight Toss** WWeight for distance event. The weight is made from iron and is spherical or box shaped with a chain and ring attached. The total length is 18 inches and the weight is 56 lbs (half a hundred weight). The weight is thrown with one hand for distance from behind a marker or trig and the best of three throws is counted.

- **Light Weight Toss** Weight for distance event. The weight is made from iron and is spherical or box shaped with a chain and ring attached. The total length is 18 inches and the weight is 28 lbs. (2 stones). The weight is thrown with one hand for distance from behind a marker or trig and the best of three throws is counted.

- **Keg Toss** Come join in on the Highland Games and try your hand at the Keg Toss! Registration begins at 3:00pm. Starts at 3:15pm in the Shepherd's Green. Whether you're tossing or watching, come see the brawn these participants are bearing!

- **Caber Toss** An Iconic Event! The caber is a long straight tree trunk for which there is no standard size or weight. The athlete balances the caber on its small end and runs with it before heaving it end over end to land, he hopes, pointing directly away from him. This would be called a 12 o'clock throw. The competitor who tosses the caber closest to this position wins the day! Cabers generally measure between 15 and 20 feet long and between 90 to 120 lbs.

- **Sheaf Toss** A 16 lb. sheaf of hay, enclosed in a jute sack, is tossed over a bar with a pitchfork. The bar is raised in steady increments until all but one competitor is eliminated. Each athlete receives three tries at each height.

- **Heavy Weight Toss** Athletes throw a 56 lb weight over a crossbar from a standing position, using one hand. They are allowed three attempts at each height, and the bar is raised throughout the competition. The winner is the athlete who tosses the weight the highest with the fewest misses!
